IDLE STATE

IDLE, MOUSEOVER
* No title or title disabled
* Some highlight effect differentiates active player
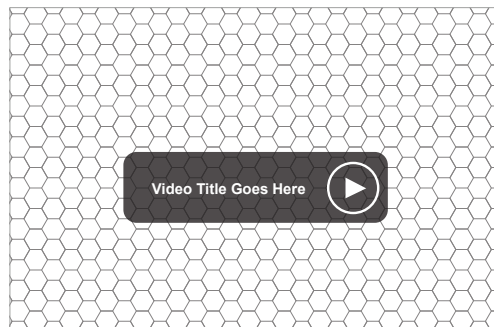

IDLE, MOUSEOUT
* Highlight disappears

IDLE, MOUSEOVER
* Title visible
* Some highlight effect differentiates active player
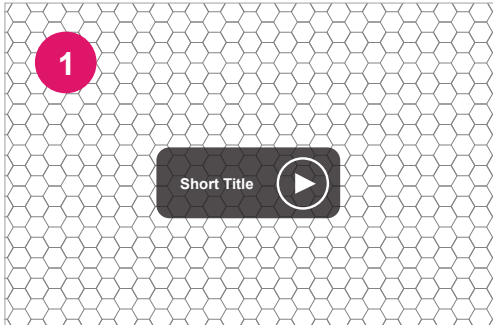

Video Title Goes Here
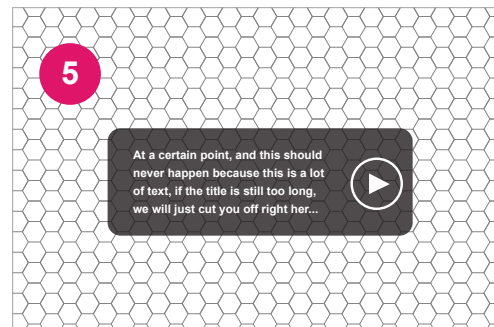

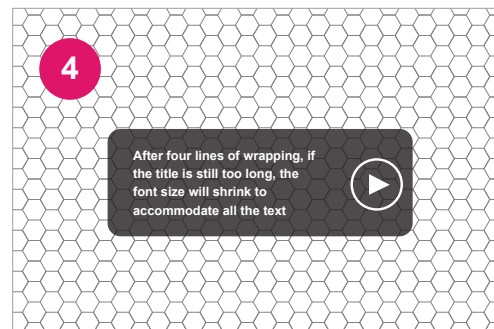

IDLE, MOUSEOUT
* Highlight disappears

Video Title Goes Here

* Based on the length of the title name. Player 6.0 will support up to two lines of text, fixed vertical height

1

Short Title ▶

2

Title that is long enough that it wraps on two lines ▶

* Future releases may support more lines of text:

3

Title that is extra long so that it has to wrap onto 3 or 4 lines, makes this box expand horizontally ▶

4

After four lines of wrapping, if the title is still too long, the font size will shrink to accommodate all the text ▶

5

At a certain point, and this should never happen because this is a lot of text, if the title is still too long, we will just cut you off right her... ▶
